

Partner with MSC

We work with healthcare systems, universities, schools, and community organizations that share our commitment to equitable language access. Every partnership is free to join — we bring the curriculum, you bring the community.

WHY PARTNER WITH MSC

Language barriers in healthcare settings contribute to misdiagnosis, reduced treatment adherence, patient safety events, and health disparities. MSC's programs address the root problem: healthcare providers and systems lack access to culturally authentic language education. A partnership with MSC brings that education directly to your students, staff, or community — at zero cost.

PARTNERSHIP TYPES

HEALTHCARE ORGANIZATIONS

Hospitals, Clinics & Health Systems

- Deploy HSI training to clinical staff and residents
- Co-develop culturally competent Spanish content for your patient population
- Promote MSC to pre-health students in your pipeline programs
- Use MSC resources in orientation and continuing education

UNIVERSITIES & MEDICAL SCHOOLS

Higher Education Institutions

- Integrate HSI curriculum into pre-health or public health coursework
- Pursue research partnerships on language acquisition and health outcomes
- License MSC content for your institutional learning management system
- Co-present research at ACTFL, APHA, or clinical education conferences

K-12 SCHOOLS & DISTRICTS

Secondary Education

- Supplement Spanish curricula with authentic cultural and slang content
- Run MSC as an extracurricular or after-school program
- Access free resources for heritage Spanish speaker support
- Partner for college-prep healthcare pathway programs

COMMUNITY ORGANIZATIONS

Nonprofits & Community Groups

- Bring MSC's advocacy programs to your community events
- Use free resources in community health worker training
- Co-host language access workshops in the DFW area
- Collaborate on language equity policy and advocacy

WHAT MSC BRINGS TO THE PARTNERSHIP

We provide — at no cost to partners:

- Research-backed curriculum built on language acquisition and cultural competence research
- Custom implementation support and onboarding for your organization
- Content co-development for organization-specific language needs
- Free learner accounts with progress tracking for all participants
- Co-branding and promotional support for your partnership
- Access to MSC's growing network of language access advocates
