

Multilingual Support Collective

Youth-led · 501(c)(3) nonprofit

BRAND GUIDELINES

How MSC looks, sounds, and shows up.

One shared reference for everyone who makes something with the MSC name on it — volunteers, designers, partners, and press. When in doubt, come back here.

Who we are

The Multilingual Support Collective (MSC) is a youth-led 501(c)(3) nonprofit bridging language gaps in healthcare, education, and community life.

Mission

MSC empowers communities through language access.

Vision

A world where language is never a barrier to health, education, or belonging.

Tagline

Language is access.

Use the tagline as a sign-off — under the logo, at the end of a video, on the back of a shirt. Secondary line for program materials: *"Real help, in real languages."*

What we stand on

Authentic language

Language as people actually speak it — practical, respectful, culturally grounded.

Health & education equity

Communication barriers are access barriers. Removing them is the mission, not a side effect.

Free access

Every resource, program, and tool is free. No paywalls, no sign-up walls.

Youth-led, community-driven

Built by student volunteers who grew up between languages, guided by adult advisors.

The mark

Two overlapping speech bubbles: a conversation, and a collective. The rounded tile makes it feel like a tool you can pick up and use.

Rules of thumb

- Keep clear space around the mark equal to the height of one speech bubble.
- Minimum size: 24 px on screen, 0.3" in print.
- Don't recolor the bubbles outside the brand palette.
- Don't stretch, rotate, outline, or add drop shadows.
- Don't place the primary tile version on teal — use the reversed mark.
- The full name should appear near the mark on first use; "MSC" alone is fine after that.

Files in this kit

SVGs scale to any size (use for print & web). PNGs are for slides, docs, and social. All in **/brand** on the website or the shared drive: *msc-logo-mark.svg*, *msc-logo-mark-white.svg*, *msc-logo-mark-color.svg*, *msc-logo-mark-mono.svg*, *msc-logo-horizontal.png*, *msc-logo-horizontal-white.png*, *msc-logo-mark-512.png*.

Palette

Teal leads. Amber acts. Cream softens. Coral is reserved for warnings and errors — never decoration.

 #1A6B72	 #135459	 #E8F4F5	 #E8A020
MSC Teal Primary brand color. Headers, links, brand moments.	Teal Dark Hover states, small text on light teal.	Teal Light Tinted backgrounds, selected states.	MSC Amber Action color — buttons and CTAs only. Charcoal text on top.
 #FEF3D0	 #E05C4B	 #F8F6F1	 #1C1C1E
Amber Light Highlight washes, callouts.	MSC Coral Errors and alerts only.	Cream Warm section backgrounds.	Charcoal Body text, near-black UI.

Accessibility

Teal on white passes WCAG AA for text. Amber does **not** — never set text in amber on white; amber is a background for charcoal text. Body copy is charcoal or the warm grays derived from teal (see globals.css), never pure gray.

Type system

HEADINGS & EDITORIAL — FRAUNCES

Language is the front door to everything

A warm, characterful serif. Used for every heading, large pull-quotes, and long-form reading. Weights 600–700 for headings. Google Fonts, free.

BODY & UI — INTER

Body copy, buttons, forms, navigation, captions, and anything functional is set in Inter — clear at small sizes and neutral enough to let Fraunces carry the personality. Weights 400–700. Google Fonts, free.

Rules

- Never set body paragraphs in Fraunces below 13 px — it's a display face.
- Headings are tight (letter-spacing -0.015em), body is relaxed (line-height 1.6+).
- In Google Docs/Slides where Fraunces is unavailable, substitute Georgia; for Inter, use Arial.
- Eyebrow labels: Inter bold, ALL CAPS, wide letter-spacing, teal.

How MSC sounds

Direct and confident. Warm and communal. Purposeful — every sentence connects language to real life. We talk like a person, not a grant application.

✓ SOUNDS LIKE US	✗ DOESN'T
"Language barriers are linked to medication errors. Our phrase cards help."	"We leverage innovative solutions to empower diverse stakeholders."
"Free for every family, always."	"Complimentary access may be provided to qualifying individuals."
"Built by students who interpreted for their own families."	"Our team of passionate changemakers is disrupting language education."
"An hour a week moves the mission as much as any check."	"Consider engaging in impactful volunteerism opportunities."

Boilerplate (copy-paste ready)

ONE-LINER

The Multilingual Support Collective (MSC) is a youth-led 501(c)(3) nonprofit bridging language gaps in healthcare, education, and community life.

SHORT PARAGRAPH

The Multilingual Support Collective (MSC) is a youth-led 501(c)(3) nonprofit that creates free multilingual resources, tutoring programs, and communication tools for families, students, and underserved communities. From bilingual healthcare phrase libraries to volunteer ESL tutoring, MSC works toward a world where language is never a barrier to health, education, or belonging. Everything MSC makes is free.
